A versatile portfolio of systems, storage, walls and seating products addresses the diverse needs of today's office with solutions that stand the test of time – built to last and inherently flexible. Dedicated to delivering innovative solutions with care and expertise, Inscape is here to help you make life at work better.

About the Role

The Junior Manufacturing Engineer develops and maintains methods to ensure the manufacturing of a quality product at a minimum cost. This role must support production by working closely with the Manufacturing Engineers and the plant to ensure the proper coordination of projects and optimization of MDF wood.

Primary Tasks & Responsibilities

- Optimization of MDF wood.
- Investigate and analyze new and/or existing products and processes for the ability to meet production and performance requirements.
- Develop project plans for assigned initiatives which include, scope, return on investment, timelines, status reporting & management updates, change notices.
- Develop and maintain methods and standards to ensure the manufacturing of quality products at minimum cost.
- Project management as related to general manufacturing engineering projects.
- Assist in the development and control of budgets for projects

Knowledge, Skills, Abilities & Education

- College diploma or university degree in engineering or equivalent field experience.
- General manufacturing knowledge and process development.
- Excellent interpersonal, written and verbal communication skills.
- Ability to work well with multiple people across multiple departments.

If you have the qualifications for the above position and are interested in joining a team oriented progressive company with excellent benefits, please submit your resume for consideration to careers@inscapesolutions.com.

We thank all applicants for their interest, but advise that only those selected for an interview will be contacted.
