

Logistics Manager

Holland Landing, Ontario

About Us

Inscope is a design enabler. We have been saying Yes since 1888 with a versatile portfolio of systems, storage and wall products that are adaptable and built to last. With care and consideration, and more than a century of expertise, our philosophy is to always do what we can to say Yes.

About the Role

The Logistics Manager will establish the best inbound & outbound shipping and logistics solutions for Inscope while maintaining reliability, customer satisfaction and cost considerations. This position will develop a freight strategy that blends choosing optimal routing pricing and carriers. The Logistics Manager is responsible for leading a shipping & receiving team in line with organizational and departmental priorities.

Primary Tasks & Responsibilities

- Develop a strategic plan to deliver against initiatives:
 - Reduce freight/shipping costs
 - Improved customer satisfaction
 - Improved reliability
- Develop and direct logistic processes and establish ongoing improvement plans for freight management, vendor routing, and carrier management.
- Develop, implement, and monitor performance metrics for transportation, shipping and receiving.
- Create, monitor and report on weekly and monthly logistics key performance indicators.
- Negotiate with and manage contracts and service level agreements for third party suppliers and/or service providers.
- Manage courier/carrier implementations and establish service level agreements to ensure services are delivered as promised.
- Primary contact to our freight auditors (DTA).
- Conduct profit and loss management for the company's logistics function; manage logistics budget.
- Deal with imports and exports shipped to and from the company; work with customs officials to ensure compliance.
- Responsible for expediting shipments and managing temporary storage solutions as necessary.
- Other duties as assigned.

Knowledge, Skills, Abilities & Education

- Completion of post-secondary education and or 5 years' experience in a related field.
- Thorough knowledge of order to fulfillment including inbound, outbound and efficient planning of routes.
- Thorough understanding of shipping and logistics theory and Inscope's practices.

- High degree of interpersonal skills as well as excellent verbal and written skills.
- Comfortable dealing with people at all levels within our organization and externally.

If you have the qualifications for the above position and are interested in joining a team oriented progressive company with excellent benefits, please submit your resume for consideration to careers@inscapesolutions.com.

We thank all applicants for their interest, but advise that only those selected for an interview will be contacted.
