

# Agia

A European designed, innovative task chair that performs beautifully across the office.

- Innovative lumbar depth adjustment for long-lasting comfort
- Upholstered or mesh backrest that offers dynamic support, adjusting as your body changes position
- Affordable design and comfort without compromise

# Agia

## Adjustment Features

A QR tag is included on every chair, scan the tag or type in the website and watch a video that provides adjustability instructions.

### Quick Adjust Mechanism

Adjustable Synchro mechanism offers six settings: (1) synchronous movement; (2) locking the backrest into one of five preferred positions.

## Seat Adjustments

### Seat Height

The height of the seat adjusts quickly with a simple pull of a lever. Your knees should be bent at 90 degrees or slightly more, with your feet planted comfortably on the floor. This will help keep your spine aligned in a natural 'S' shape.

Standard range of adjustability is 5" from 15 ¾" to 21" H.

### Seat Depth

The seat depth adjusts by 2 ½" (16" to 18 ½") guaranteeing optimal legroom and reducing pressure on the thighs, helping to improve blood circulation.

## Back Adjustments

These intuitive adjustments create a full support system for the lower section of the spine.

### Lumbar depth

Innovative lumbar depth adjustment for excellent support of the overall curvature of your back. For both upholstered and mesh back versions, adjust the mechanism located inside the lower seat back to change the depth in curvature of the seat by ¾".

### Lumbar height (optional on High Back Mesh)

To maximize back comfort you can easily adjust the height of the lumbar support. Two handles on the backrest let you slide the lumbar support to your ideal position.

Upholstered TCHBU, TCLBU adjust 2.36" in height  
Mesh TCHBM adjusts 2 ½" in height

## Arm Adjustments

Independently height adjustable armrests (range 3") with soft pad. Color of armrest frame: black.

## Production

Assembled in USA.

Lead time: approximately 9 weeks from order acknowledgement (call for details).

## Weight capacity

300 lbs.

## Other Features

### Cartoned

Agia chairs ship fully assembled in cartons.

### Casters

Casters are self-braking so the chair does not roll away in an off-loaded situation.

Standard - hard casters

Option - soft casters
