

Specials Product Engineer

Holland Landing, ON

About Us

Inscope is a design enabler. We have been saying Yes since 1888 with a versatile portfolio of systems, storage and wall products that are adaptable and built to last. With care and consideration, and more than a century of expertise, our philosophy is to always do what we can to say Yes.

About the Role

The primary purpose of the Specials Product Engineer is to design, develop, prototype, and engineer assigned projects through the final stages of development. The Specials Product Engineer will work closely with various departments, such as sales and manufacturing, to execute special requests from consumers. The Specials Product Engineer will also act as a liaison between Specials and Manufacturing to communicate special requests for product to ensure products are produced to customer requirements.

- Reports to Director, Sales Resource Team
- No direct reports.
- 70% office.
- 30% plant.

Primary Tasks & Responsibilities

- Co-ordinate the execution of assigned specials projects to completion based on established product development procedures and practices.
- Collaborate with required disciplines or individuals to ensure the timely completion and success of assigned projects.
- Prepare Engineering Controlled (n/c) programs and supporting documentation as required.
- Prepare Engineering documentation (BOM, Structures, Routing, and Rates) to accurately reflect product specifications and processes.
- Offer recommendations, where appropriate for the improvement of products or processes.
- Generate design concepts, 3D Pro E solid models, co-ordinate prototype development and prepare final engineering drawing documentation.

Knowledge, Skills, Abilities & Education

- A degree in Engineering with a minimum of three years' experience, or the equivalent in education, training and experience.
- Knowledge of design engineering processes, various manufacturing processes, Pro Engineering, CAD and NC capabilities.
- Knowledge of engineering information systems (BOM).

- Strong problem solving skills.
- Excellent organizational and project coordination abilities.
- Strong communication skills with the ability to communicate with various levels of the organization.

If you have the qualifications for the above position and are interested in joining a team oriented progressive company with excellent benefits, please submit your resume for consideration to careers@inscapesolutions.com.

We thank all applicants for their interest, but advise that only those selected for an interview will be contacted.
