

Specials System Engineer

Holland Landing, ON

About Us

Inscape is a design enabler. We have been saying Yes since 1888 with a versatile portfolio of systems, storage and wall products that are adaptable and built to last. With care and consideration, and more than a century of expertise, our philosophy is to always do what we can to say Yes.

About the Role

The Specials System Engineer will design, engineer and coordinate assigned specials through to the engineering release and successful production. This role must interact with employees both inside and outside of the Sales Resource Team in order to see the project through to the final stages of development.

- Reports to Director, Sales Resource Team
- No direct reports
- 70% office
- 30% plant

Primary Tasks & Responsibilities

- Prepare Engineering documentation (BOM, Structures, Routing, and Rates) to accurately reflect product specifications and processes.
- Coordinate the execution of assigned projects to completion based on established Product Engineering procedures and practices, in keeping with a philosophy of “Continuous Improvement”.
- Actively participate in the design and development of new products, additions or improvements of existing product lines, specials, cost reductions and maintenance projects.
- Collaborate with Marketing, Product Development, Manufacturing Engineering, Production, Quality Engineering and other disciplines or individuals to ensure the timely completion and success of assigned projects.
- Prepare Engineering Numerically Controlled (NC) programs and supporting documentation as required.
- Offer recommendations, where appropriate for the improvement of products or processes.
- Perform other duties as may be requested by the Specials or Product Engineering Manager.

Knowledge, Skills, Abilities & Education

- Specialization required in one or more of the following areas; CAD, Engineering Design, Engineering Documentation, Friedman Model Building or Sheet Metal Manufacturing.
- Must hold a degree/diploma in Engineering or Industrial Design with three years of experience, or the equivalent in education, training and experience.
- Knowledge of CAD, design practices, general manufacturing practices and processes, engineering information systems (BOM) and project coordination.

- Computer literate with a general knowledge of network and PC based computer applications.
- Strong problem solving and organizational skills.
- Good communication and Interpersonal abilities.
- Must have excellent product knowledge and knowledge of furniture industry standards.

If you have the qualifications for the above position and are interested in joining a team oriented progressive company with excellent benefits, please submit your resume for consideration to careers@inscapesolutions.com.

We thank all applicants for their interest, but advise that only those selected for an interview will be contacted.

**Inscape values employment equity and is an equal opportunity employer.
Inscape will provide reasonable accommodation to applicants with disabilities.**
