# Laminate

## Application

Inscape System Worksurfaces

Inscape's standard finish offering includes laminates ranging from solid neutral colors to rich woodgrain patterns. Laminates offer value, versatility and durability.

Underside of surfaces is finished with a man-made, wood fiber veneer backer. ¼" worksurfaces are finished with a 2mm complementary edge banding. ½" tops are finished with a self-edge.

Laminates are supplied by Wilsonart and Arborite. Samples may be requested by visiting Insite, Inscape's online resource tool ([accessinsite.com](http://accessinsite.com)).
