

FOR IMMEDIATE RELEASE

New Broader Applications with Inscape Bench

June 1, 2017 – Inscape Bench has evolved to support a broader range of applications to meet the need for focus, collaborative and flexible workspaces. With new divider screens, freestanding tables and warm finish options, this modular spine based platform offers more planning possibilities for the open environment.

Inscape Bench delivers convenient power, personalization, privacy and well-being options, including the unique ability to add height adjustability after installation. New natural material options enable the creation of environments that communicate a greater sense of warmth and comfort, including finishes that complement Inscape's new Arrivals Wing system. Inscape Bench is BIFMA level® 3, FSC® and SCS Indoor Advantage Gold certified.

Inscape Bench's new applications will be showcased at Inscape's showroom (#1095) during NeoCon, June 12-14 at The Mart in Chicago. Designed by figure3, an award-winning design studio committed to creating high performing spaces that are functional, inspired and authentic, Inscape's showroom will also showcase its award-winning system, storage and walls products.

About Inscape

Inscape is a design enabler. We have been saying Yes since 1888 with a versatile portfolio of systems, storage, and walls products that are adaptable, and built to last. With a wide dealer network, showrooms in both Canada and the U.S., and full service and support for our clients, our philosophy is to always do what we can to say Yes.
