AGIA OVERVIEW

Agia A European designed, innovative task chair that performs beautifully across the office.

Designer ITO Design

Awards/Achievements TOP DESIGN award 2014

Testing Agia is Tested to BIFMA X5.1-2010
General purpose office chairs safety standard

Weight limit 300 lbs.

Adjustment Features

A QR tag is included on every chair, scan the tag or type in the website and watch a video that provides adjustability instructions.

Quick Adjust Mechanism

Adjustable Synchro mechanism offers six settings: (1) synchronous movement; (2) locking the backrest into one of five preferred positions.

Seat Adjustments

Seat Height

The height of the seat adjusts quickly with a simple pull of a lever. Your knees should be bent at 90 degrees or slightly more, with your feet planted comfortably on the floor. This will help keep your spine aligned in a natural 'S' shape.

Standard range of adjustability is 5" from 15 ¾" to 21" H.

Seat Depth

The seat depth adjusts by 2 ½" (16" to 18 ½") guaranteeing optimal legroom and reducing pressure on the thighs, helping to improve blood circulation.

Back Adjustments

These intuitive adjustments create a full support system for the lower section of the spine.

Lumbar depth

Innovative lumbar depth adjustment for excellent support of the overall curvature of your back. For both upholstered and mesh back versions, adjust the mechanism located inside the lower seat back to change the depth in curvature of the seat by ¾".

Lumbar height (optional on High Back Mesh)

To maximize back comfort you can easily adjust the height of the lumbar support. Two handles on the backrest let you slide the lumbar support to your ideal position.

Upholstered TCHBU, TCLBU adjust 2.36" in height
Mesh TCHBM adjusts 2 ½" in height.

Arm Adjustments

Independently height adjustable armrests (range 3") with soft pad. Color of armrest frame: black.

Other Features

Cartoned

Agia chairs ship fully assembled in cartons.

Casters

Casters are self-braking so the chair does not roll away in an off-loaded situation.

Standard - hard casters

Option - soft casters

Net weight

TURNAROUND OVERVIEW

Designer	Judith Daur
Awards/Achievements	Selection Interior Innovation Award, 2015
TurnAround	<p>Get Moving Whenever you want to foster flexibility and collaboration - at high desks or low tables - TurnAround is ready for action. TurnAround creates a dynamic sitting experience, encourages posture movement and fosters lively interaction among colleagues.</p>
Testing	<p>Tested to European standards DIN EN16139 and AFPS GS-2014 GreenGuard tested and certified</p>
Weight limit	<p>Stool: 242 lbs/110 kg. Chair: 330 lbs/150 kg.</p>
Freight	Please reference the Conditions of Sale document on inscapesolutions.com

The wrap-around backrest with its generous upholstery provides comfortable support in any position.

The lumbar support provides optimum support for the back.

There is plenty of scope for seat positions turning sideways and getting on effortlessly.

The seat shell goes along with every movement and tilts backwards and forwards.

The sloping, all-round front edge of the seat makes standing-sitting and changing posture easier.

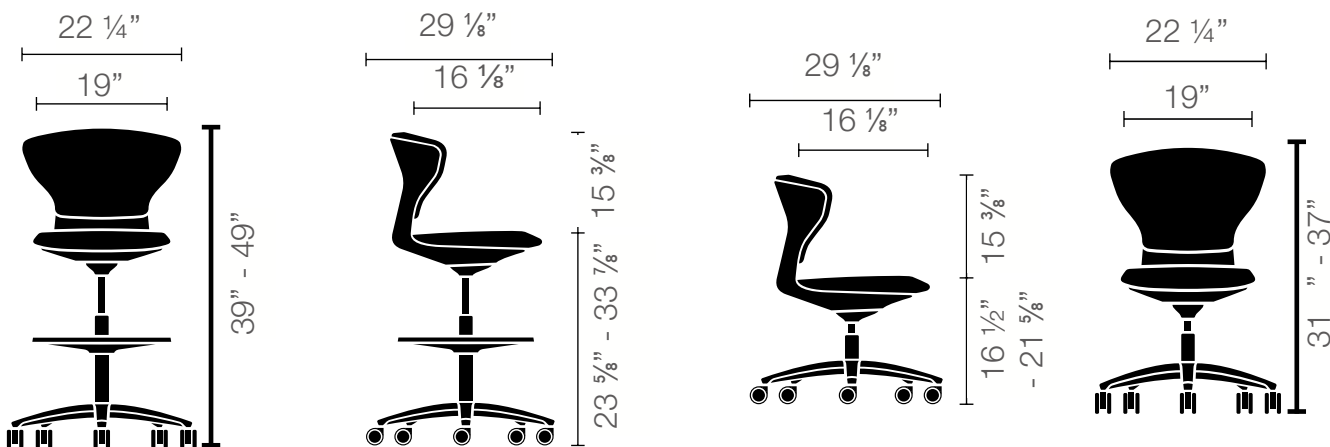

Chair or stool

Shell

Choose: Seat and back upholstery; hard (chair only) or soft casters; aluminum base (optional)

Choose: Black or white shell color

	Overall Depth	Overall Width	Overall Height	Seat Height	Seat Depth	Seat Back Width

TURNAROUND PRICING

Specification Notes

The default of the plastic parts (shell) is white, though the base is black. The footring on the stool is always black, with brushed aluminum on top. TCTASTOOL comes with soft casters for security. The stool has constantly braked soft casters for safe mounting with full mobility of the chair. These casters always have a soft covering for improved grip even on smooth floors. With these casters the stool will not roll away even if you lean against the stool and will not roll away when you sit on the chair.

TurnAround cannot be produced using Customer's Own Material. Only the materials provided below are suitable for application.

TCTASTOOL and TCTACHAIR

1. Choose a fabric
2. Specify the base
 - a. Aluminum base black (standard)
 - b. Aluminum base white (option)
 - c. Aluminum base polished (upcharge)
3. Specify shell color
 - a. white (standard)
 - b. black (option)
4. Choose hard or soft casters (TCTACHAIR) or
 - b. Felt glides or plastic glides (upcharge) for chair or stool
