

FOR IMMEDIATE RELEASE

Inscape Announces Major Enhancements to Reform Walls

New aesthetic and functional options enable a full office solution.

October 25, 2018 – Beauty meets function with new aesthetic enhancements to Inscape’s Reform movable walls. An established movable wall product, over 1,000 miles of Reform walls have been erected throughout North America. Reform’s core as a functional and flexible product is now enhanced with Reform Light glass panels that attach to Reform panels to create storefront applications. Butt-glazed glass panels with a sleek, thinner base address today’s need for a light-scale aesthetic.

New accessories, including the SoundBoard attach seamlessly to metal, fabric and glass panels with magnetic and panel mounted options to provide superior sound absorption and transform the look of any Reform surface in seconds. A new planter option supports biophilic design while NoteBoard and PrivacyBoard options support collaboration and privacy.

Reform’s significant aesthetic and functional enhancements along with its ability to integrate with Inscape’s furniture, including hanging capability for worksurfaces and overhead bins, power and data access, combine to offer a full office solution. [Learn more.](#)

About Inscape

Inscape is all about adaptability through simplicity. We have been saying yes since 1888 with a versatile portfolio of systems, storage and walls products that are adaptable and always built to last. With a wide dealer network, showrooms in both Canada and the U.S., and full service and support for all of our clients, our philosophy is to always do what we can to say Yes.
